RE: Year End Report (11/28/00-12/31/00)

Dear Sir:

This letter is in response to your recent request for additional information regarding the Republican National Committee's Year End 2000 Report.

After careful review of Schedule A I find our report is correct. When I add the in-kind from Ray L. Hunt for \$4,506.93 and the in-kind from Shelton G. W. Jim On for \$711.74, I come up with the figure \$5,218.67 which is the same amount reported on the Schedule B.

You are questioning the total reported on the Detailed Summary Page, Line 18 Column A compared to the total on Line 21 (a) (ii) Column A. Because \$2,315,759.29 reported were transfers from the previous reporting period these totals will not match.

I am amending the report to correct the descriptions for our voided checks and the descriptions for the disbursements for rally expenses. In the pasted we have explained how we void check and our procedures have not changed since our last response letter.

Any descriptions for Production Cost, Production Design, Media Production, Airtime, Fax Broadcasting, Ad Costs and Advertising Costs on Schedule H4 are not allocable to any federal candidate unless reported on Schedule B and so noted.

Last year we had a high volume of travel expenses put on our American Express credit card. We had made several prepayments on account to American Express. We have listed these disbursements on our previous report. In order to report every vendor as you have requested we needed to back out the original prepayments on account to American Express. By doing this, we now were able to list all expenses paid; with vendor names and addresses.

We are amending our report to correct the spelling of Don Stenbergs name.

Please contact me if you have any further questions concerning this report and the amendment.

Sincerely,

Pat Huyek

Enc.
